

Personal memo from  
JOSHUA LEDERBERG

Tom Paterson  
Entels

AUG 16 1998

Clonal selection model.

Tom -

I thought you'd enjoy the style  
of presentation.

In hindsight the enumerated  
premises might be made more  
strictly orthogonal. Leave aside  
the blunting of Occam's razor and  
nature's multiplication of  
entities.

Yours,

↓ Jili.
